

RELOCATION SERVICES

Equipment or Lab Relocations and Consolidations

Relocation Services

Labs relocate all the time. Whether local or across the country, Diversified Laboratory Repair is available to assist you in relocating your laboratory equipment and temperature sensitive materials.

Every laboratory move is different. DLR provides customized relocation services to meet your specific project requirements for relocating a single unit or multiple units within the lab. In addition, we follow company-developed SOPs for relocation.

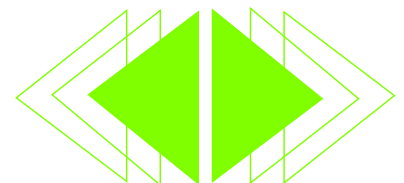

If you are only moving samples/contents and not the controlled temperature unit (CTU), DLR offers transport CTUs to safely move your assets at any temperature range, even at multiple ranges on the same truck.

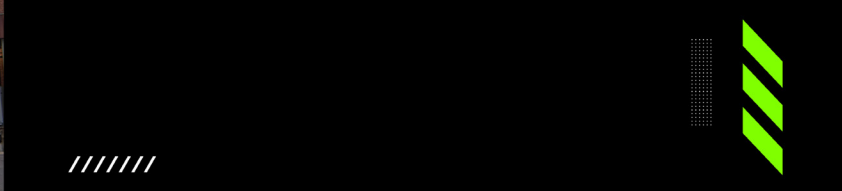

All services offer complete temperature monitoring with alarms from one location to the other.

Why DLR

With over 30 years of refrigeration, electronics, and cold chain experience, DLR's service engineers apply deep application knowledge and understanding of facility operations to solve equipment challenges. Our service engineers graduate from rigorous industry training and are experts in providing proper documentation procedures required to meet the following standards and guidelines:

- GMP
- GLP
- GDP
- ISO 9001:2015

Benefits of using DLR Relocation Services

Relocation Services

- DLR will manage lab relocations or consolidations
- Services available for entire labs, individual lab equipment, and temperature-sensitive samples only.
- Single chain of custody during relocation.

Transportation

- Transport Refrigerators, Lab Freezers, Ultra Cold Freezers and LN2 Freezers on truck powered during transit
- DLR has transport chambers to move customer material only (4°C, -20°C, -80°C and LN2)
- Trucks available as temporary walk-in storage: -20°C to 4°C

Temperature Monitoring

- Temperature Monitoring Enabled for Truck and Cold Storage Units in Transit
- Live Temperature Feed Visible to Delivery Team & the DLR Command Center during transit
- Documentation of temp monitoring data provided to customer at end of delivery

We go above and beyond

- Each quote customized to fit your unique needs
- DLR is ISO 9001:2015 Accredited
